

EXPERIENCE UNMATCHED SIMULATOR DEVELOPMENTS IN 2025 WITH 85+ SPORTS, BALL LAUNCHERS, AND LIFETIME SOFTWARE

Sports Simulator is redefining the future of interactive sport with major simulator developments in 2025. With over 67 sports currently available and 85 set to be playable by the end of the year, it's the world's most diverse and immersive simulator platform. In a landmark move, Sports Simulator is introducing Ball Launcher compatibility to six existing sports – Cricket, Twenty20, 100 Club Cricket, Baseball, Softball, and Tennis – enabling realistic, automated ball feeds for high-speed, game-realistic training. This enhancement is ideal for academies, venues, and players focused on timing, reflexes, and technical improvement. New sports launching in 2025 include Crossminton, Dodge Disc, Field Archery, Ring Ball, and Street Hockey – further expanding an already unmatched selection of racquet sports, team games, target challenges, and global favourites. Developed entirely in-house, Sports Simulator software delivers faster innovation, cohesive updates, and consistently high performance. All customers benefit from free lifetime software updates, eliminating subscription fees and keeping systems future-proof. Built for family entertainment centres, sports venues, schools, and private homes, each system features 3D ball tracking, 4K visuals, multiplayer modes, camera overlays, real-time feedback, and branded tournament functionality. From improving dwell time and boosting revenue to offering year-round engagement, Sports Simulator delivers a complete sportstainment experience for any environment. Whether you're running a competitive venue, expanding a training programme, or building the ultimate home games room, this is the all-in-one solution that grows with your goals.
